METRO CONTRACT SERVICES

Design Build Services

MCS has the full ability to provide design build services. Using the design build project delivery method MCS can provide an efficient cost effective solution to any project need large or small.

Barge Applications

Rail Applications

Truck Applications

MCS is the preferred installer for Fall Protection Systems. FPS is the nation's top provider of overhead rigid rail fall protection.

The patented TD3 Truss provides maximum safety for multiple workers atop of barges, rail cars & trucks. The use of a trolley, self-retracting lifeline, and full body harness allows user(s) to easily traverse the length of the system to maximize worker efficiency.

Learn more about Fall Protection Systems online at www.fallprotectionsystems.com or by calling 888-596-5367. They offer a free onsite analysis as well as fall protection inspection programs.

Swing Away/Fold Away Motorized Systems
